

EDO EMPLOYMENT MINISTRY

When God had created Adam, God placed him in the Garden of Eden, and charged him to dress it and keep it. Thus, the first charge that God put on man was work. When we work, we are discharging our first responsibility in life, the charge to work. So, work is important, for every one of us.

The church of Christ is in a position to help all humans fulfill their God-given capabilities. That is why the church cannot relent in the efforts to grant scholarships for education and training. After that, the church also must consider the assistance to graduates of any level to obtain the jobs where they can utilize their potentials to the fullest. Upon popular demands therefore, the Shepherds therefore creates this forum to assist all such persons who desire to find the jobs of their choice.

Unemployed persons who desire to find jobs would need to complete their profile and add their resume to it, for possible employers to view and review. When, after reviewing the applicant's documents the employer may call to invite the applicant for interview, if need be.

All applicants must complete the following data information about themselves, for their applications to be viewed.
